Design Guidelines for B2C E-Commerce in Virtual Worlds

Minh Quang Tran\(^\dagger\), Shailey Minocha\(^\dagger\), Dave Roberts\(^\dagger\), Angus Laing\(^\ddagger\) and Darren Langdridge\(^\ddagger\ddagger\)

\(^\dagger\)Centre for Research in Computing, The Open University UK, \(^\ddagger\)School of Business and Economics, Loughborough University UK, \(^\ddagger\ddagger\)Department of Psychology, The Open University UK

Guidelines for B2C e-commerce in virtual worlds were derived, based on interviews with consumers in Second Life. The guidelines include usability and customer relationship management principles.

### Pre-purchase stage guidelines
1. Attract the consumer’s attention to the product
2. Facilitate product discovery
3. Communicate the brand identity

### Purchase stage guidelines
4. Facilitate navigation and accessibility
5. Support real world-like interactions
6. Provide product information in text form
7. Facilitate consumer-to-consumer interactions
8. Provide an aesthetically pleasing experience

### Post-purchase guidelines
9. Provide post-purchase customer support
10. Support an online brand community

Please help us refine the guidelines by completing our evaluation form.
