Gaming VFTs: challenges

Cost: resources, people, time
Real data: detail vs performance
Framework: self-contained vs adaptable
Comparisons: virtual vs physical fieldwork
Overload: not alienating non-gamers...

How to combat fear that VFTs might replace real field teaching?

Gaming engine: affordances

‘3D’ landscape – geology in context; spatial literacy
Rich interface – interactivity and immersion
Self-contained – (mostly): little linked material
Multi-user – especially for distance learners
‘More than fieldwork’ – do something different:
  – flying
  – aerial views, map overlays
  – in-world cross-section
  – teleports (time-saving)
  – fadeable avatars

What about: F2F students? or schools?
Evaluation & the future...

1. V-skiddaw at the OU
   eSTEeM project + Steve Tilling

2. V-skiddaw for A-Level students

3. A Virtual Field Trip Service
   innovate UK project
   Daden Ltd, DesignThinkers, OU

What about: F2F students? or schools?

Virtual Field Trip Ecosystem

Authoring Institution
(usually likely to be a user institution, but could be non-educator)
- Technicaly Skilled Educator/Staff
- Create new locations and core lesson plans
- Under contract (if reqd)
- £ Revenue Stream from others' use
- Geospatial Subcontractor
- Digitise area from sat/aerial/site

User Institution
- £ Payment, eg per use, per loc, global pass, per annum
- Customise Lesson Plans
- Learning Analytics
- Experience Virtual Field Trips
- Create User Generated Content

Web/Cloud
- £
- Multiple Locations, eg
  - Skiddaw
  - Snowdon
  - Everest
  - Moon
- Revenue/Cost flows in yellow

Virtual Field Trip Service
- £
- Multiple Lesson Plans
  - KS1-3
  - GCSE/A
  - UGrad
- Core App
- New Locations
- New Features
- Management/Support Costs

VFTaaS Operator (Daden)
Questions for you

1. Main attractions of Virtual Skiddaw?
2. How would you use a similar VFT?
3. Should we make more?
4. Would you like to be involved?
Shameless plug...

The OpenScience Laboratory
An initiative of The Open University and The Wolfson Foundation
This online laboratory brings interactive practical science to students anywhere and anytime the internet is available. The laboratory features investigations based on real-time instruments, remote access experiments and virtual scenarios using real data. Several activities are available to all, while others are available only to registered users.
