Development of a CPD model for a children’s integrated workforce

Janet Bardsley, Jenny Simpson, Dr Kenneth Bayley, Dr Sharif Haider
The KEV scheme has been launched to encourage our academics to establish relationships with organisations who they have had no previous interaction with.

The voucher pays for a certain number of days of OU academic or PhD student time; enough to help the organisation find an answer or explore the options to a particularly pressing question or challenge. Or it can be used to help you to undertake a small piece of research, conduct a literature review, or a study or analyse their existing data sets.
Southampton City Council

Background

- There are a range of centrally driven agendas aimed at encouraging or requiring Local Authorities to organise services so that they place the needs of the child first, through the provision of early help, in a way which is more integrated across agencies (DfE, 2015; DfE/DH, 2015).

- There has also been a number of reviews seeking to articulate the skills, abilities and standards within the workforce, particularly registered social work practitioners (HCPC, 2011; TCSW, 2011; Narey, 2014; Croisdale-Appelby, 2014).

- At Southampton City Council the organisational shift has been initiated by the “Transformation Agenda” introduced in 2012.

- High turnover of staff
Southampton City Council

Background

- 865 (total number of staff within Children’s Services) 177 (qualified social workers, of that 77 posts are filled) and 59 (non-registered social care staff)
- Qualified social workers and non-registered social care staff situated in a number of teams that include:
  - Multi-agency Safeguarding Hubs (MASH)
  - Early Help 5-19 Education
  - Protection and Court Team (PaCT)
  - Youth Offending
  - Looked After Children
  - Adoption
  - Fostering
Research Question

Aims

● To contribute to the knowledge and understanding of how Southampton City Council can respond to central government policy direction of development and delivery of social care services via an integrated children’s services model.

● To work in conjunction with Southampton City Council to develop a CPD model that begins with qualified social workers and non-registered social care staff and then broadens to the other members of the workforce within the Children’s Integrated Service. The purpose of the model being to map career pathways and their associated training and development.

● To develop a CPD model that will enable Southampton City Council to equip their staff to meet their statutory duties and enhance performance through its focus on development, staff support and retention.
What models of CPD would provide Southampton City Council with a framework to support and develop their workforce within this context?
