Virtual Reality for Employability Skills

Shailey Minocha and Ana-Despina Tudor
20 July 2017

3D virtual environments and virtual reality

- Second Life
- Virtual Skiddaw: 3D geology field trips (Unity 3D)
- 360-degree videos in the browser
- Virtual reality viewers

Mobility
### Affordances

<table>

Employability

“A set of capabilities and achievements that support students in developing their careers, raising their aspirations and enhancing their contribution to society.”

The Open University Student Employability Policy Statement
Virtual reality and employability

- Awareness of virtual reality technologies
- Design and prototyping
- Risk-assessment training
- Continuing Professional Development
- Emergency and natural disaster management training
- Treatment of depression, loneliness, dementia
- Sensitising to environmental issues
- Interviewing; team-working skills
- Healthcare education; forensic science training
- Teaching
Experiencing the invisible

Real places

“The virtual reality helped me because I could see for myself what was happening without having to imagine it.”

Learning through simulations

Simulations

“The animation was very realistic; therefore, I could take more knowledge away from the lesson [...] these images can [...] help me explain about the respiratory system in a much larger amount of detail.”
Local to global – and – global to local

Local to global

Global to local

“It helped me to understand the Chilterns is an area of natural beauty compared to some places in the world. It helped me to feel more caring about the Chilterns.”
