What is the relationship between students attending online library training sessions and their attainment scores?
Why?

- Stakeholder Advocacy
- Supporting Institutional Strategic Aims
- Service Promotion
- Impact Visibility
- Improving Student Success
Our Training Sessions

Generic
• Any Student
• 5 standalone sessions
• Run throughout the year

Targeted at Module
• Specific class of students
• Scheduled into curriculum
• Standalone session

Targeted at Assignment
• Specific class of students
• Scheduled into curriculum
• Informing a specific assignment
How

- Pass with Distinction
- Pass
- Fail
- Attended Live
- Watched Recording
- Did not engage

Assessment Score

Module Score

Assignment Score
A higher proportion of students engaging with Library training sessions gain distinctions.
Students who attend live sessions on average have a higher assessment and exam score.
Targeted at Module

Same pattern as the generic sessions, more students are gaining distinctions

Targeted Training Sessions
Students who started studying in October 2017

<table>

<td>55.0%</td>
<td>2.0%</td>
</tr>
</tbody>
</table>
Targeted at Assignment

Students attending live sessions had a higher assignment score on average.

Difference between average assignment scores.
Students who started studying in October 2017.
Conclusions

• Students engaging with library training sessions are gaining higher results.

• Live training better than viewing recordings.

• Either is better than neither.
The unanswered questions...

• Are these the motivated, more engaged students?
• Are these the students with higher or lower prior education experience?
• What other factors are impacting on student success?
• How good a predictor of student success is attendance at the library sessions?
Acknowledgements

My amazing co-authors:
• Richard Nurse
• Helen Clough

Others who’ve helped along the way:
• Matthew Taylor

And the rest of the OU Library team.
Thank you
