Student registration
Digital Key Performance Indicators
Digital transformation of vocational education showcase

Empower students to develop their digital environment

Deliver a relevant digital curriculum for Generation Z

Deliver an inclusive digital student experience BYOD

Support Students & Staff to work successfully with digital technologies

Employer Engagement and Work Based Learning
Meeting the Challenge

» Technology enhancing learning and different modes of work based learning.
» Digital activities embedded in curriculum review and design processes.
» Students, Staff & Employers empowered to lead digital developments and act as co-producers.
» Engaging in meaningful dialogue with staff, employers and students about their experiences, needs and expectations – and responding promptly to these.
» Developing and resourcing formal roles for students to participate in developing the digital environment.
» Supporting staff and students to develop their digital skills and capabilities.
» Upskilling staff and students - building a workforce for the future
» Using digital technology for independent learning around the world
» Engaging employers in digital skills development
