

Research aim

- *To confirm the existence of this CoP
- *Investigate the development of these practitioners' reasonable adjustments capability

Findings

Three main themes identified:

- *Lack of consistency
- *An experiential approach
- *Sharing good practice

*Broad interpretivist approach

*Semi-structured interviews with 13 study participants

*Interview data transcribed, coded and thematically analysed

*Applied to chosen theoretical lenses- CoP and Capability theory

Dr Liz King EdD RN (Child)

Conclusions

- *Findings confirm the emergence of the CoP
- *A lack of both knowledge and national guidance can hinder the capability development of the CoP

Research impact

- *Globally unique research to inform practice
- *VCoP Reasonable Adjustments In Nursing Education (RAINE)
