Evaluation survey

1. Which of the following OU qualifications are you studying towards?
2. What was the module you studied most recently before the Online Summer School?
3. Have you previous Online Summer School Experience?
4. Why did you sign up for the Online Summer School? If there were several reasons, please try to list them in order of priority from highest to lowest.
5. Did the Online Summer School meet the expectations you had when you signed up? Please tell us why/why not.
6. Can you list three things you learned at the Online Summer School. These can be related to content, skills, or something more general. If you didn't learn anything, let us know that too!
7. Did you attend Monday sessions or review recordings on current research presentations from PhD students? If so, please let us know what you learned from these.
8. Which of the three investigations did you enjoy most, and why? (Titration with Kombucha, UV/vis analysis, Calorimetry).
9. What did you think of the level of content in the reading materials supporting each investigation (for example the level of difficulty, detail, use of practice questions, images, etc)?
10. Did you use the discussion forums – either by posting or reading posts? If so, tell us your experience of using forums.

11. Can you share one positive aspect and one thing we could improve in the Online Summer School in future years?
